OBJECTIVE

An extremely dedicated individual seeking a Web/App Developer's position. Skillful at UI/UX designing and will provide my best with my expertise to a certain prestigious organization.

EDUCATION

Bachelors of Computer Application | University of Lucknow

In first year, I studied about **C Programming along with DSA**. In second year, I've studied about **Operating System, Computer Graphics and Multimedia System, SRS, Case Diagrams**, etc.

2021 – CURRENT

High School and Intermediate - CBSE | GSVM

In High School, I studied about HTML & CSS basics which include simple topics like what is selector, methods of writing CSS, etc. In Intermediate, I've studied about the **basics of Python** which includes **Flow Control, Function, Lists, Tuples and Dictionary**.

Grade: 90% in High School, 77% in Intermediate

2018 – 2021

EXPERIENCE

Web Developer Intern | Oasis Infobyte

May 2023 – Current

In my first internship, I used to create a web-based calculator with the help of HTML, CSS and JS, which is Task 1 of Level 2. In Task 2, I've created a simple tribute page of someone I admire and in my last task, I've created a To-Do web app with the help of jQuery framework.

TECHNICAL SKILLS

- **Beginner:**
